

Giving to Harmony Science Academy - North Austin

The generosity of parents and other individuals has enabled the school to offer a strong academic program in a unique atmosphere. The school continues to rely on our "community" to support faculty salaries and innovative programs since public funds received only cover basic education costs. Now, HSA NA coordinates annual and long-term fundraising for the school and is reaching out to current families, alumni, alumni families, and the broader HSA NA community. We encourage you to participate at a level that is meaningful to you.

The Tiger Fund

Our 2010-2011 Tiger Fund goal is participation by 100% of HSA-NA families. 100% participation will be important when we ask outside organizations for support in the future. Please remember that when we talk about 100% participation, \$5.00 counts as much as \$50 and \$500. All gifts will be greatly appreciated. If you are able, please consider a gift that is a stretch and, to maximize your contribution, see if your employer has a matching gift program.

There is not an expected gift amount. However, spreading a donation out to monthly or quarterly payments may enable a family to consider a larger total contribution. If everyone participates, 100% of all HSANA families, we can reach or surpass the amount needed in this year's school budget. Because state contributions to our school have decreased this year by 9%, Tiger Fund contributions are all the more important. To donate, attach your check to a completed donation form and deliver these two items to the school office. Everything you need to know is on the form. Students can be your courier, or you may use the US Mail.

We look forward to a spirited response to the 2010-2011 Tiger Fund drive, and we will keep you informed.

HSA NA continues to be a small, effective public school. The philanthropic support by you and your family members to HSA NA is greatly appreciated.
